Finally! A company dedicated to teaching
3-17 year olds financial responsibility
in a fun and interactive way!

Consider the impact of money in our lives:

- *Money is one of the #1 causes of divorce in America*
- *Money is among the top reasons people commit suicide*
- *Approximately 75% of Canadians live financially month to month*
- *Average credit card debt for college students has increased by over 46% in the past 7 years*
- *More than \$2 billion a year is spent on advertising specifically aimed at your kids*

What is your child's Financial IQ?

Financial literacy can enhance a child's academic performance and is a critical factor in a child's ability to have a future of financial independence, security and success. We teach the real life skills of managing and understanding money that are critical to surviving and thriving in the real world. We all need these skills to function in our every day lives. Who is teaching your children about money?

We can help your **child**:

- Define money, value and wealth - attitudes, beliefs and **choices** about money
- How to apply the five factors to achieving **financial freedom**
- How to systemize savings and **create a budget**
- How to **plan** and set **goals** for financial **success**
- Define **good** and **bad debt**
- Set spending limits – **wants vs. needs**

AND it's all done through games and activities!
